

Explosion-protected mobile phones **x.com 21x -Ex**

A new generation of Zone 2 mobile phones.

Following the success of the popular **X.com 200 -Ex** the **X.com 21x -Ex** series phones boast even more features to give increased versatility. Welcome to the next level of Zone 2 communications!

The **X.com 212 -Ex** is a fully functional mobile phone with integrated camera. Cameras prohibited? That's not a problem the **X.com 210 -Ex** is the model for you and has all the features of the **X.com 212 -Ex** without the camera.

These valuable companions will make sure you're always safe. The phones, which operate between -20 °C and +55 °C, feature triband functionality to ensure you're always available. The **X.com 21x -Ex** series phones are so tough that even if they are dropped they can withstand falls onto concrete of up to two metres and the IP67 protection rating means that your phone if it gets a

little damp or falls into water you won't lose your connection!

The scratch-resistant display can withstand the everyday wear and tear caused by keys in your pocket along with the knocks and impact from drops common in an industrial environment, while an LED torch is on hand whenever find yourself in a situation where a little extra illumination would come in handy.

Furthermore, the Java 2.0 Micro Edition makes your **X.com 21x -Ex** even more versatile. A-GPS functionality and a Micro SD card slot enhance the phone's range of applications even further. Naturally the fast EDGE connection is always available.
