i.roc 52x - Ex

i.roc 527 -Ex - Industrial PDA FM Class 1 Div 2 certified

The XScale processor, the operator interface featuring different Windows mobile operating systems, the impact resistant TFT display with touchscreen function and the extensive range of equipment and accessories all got to make the i.roc the perfect tool. The i.roc product concept is truly impressive, with its innovative power and flexibility allowing the early adoption and application of new ways of working in hazardous areas. The long term product strategy with HP further guarantees investment security for our clients.

Features

- Based on HP iPAQ technology
- Microsoft Windows Mobile 5, using Microsoft technology for future projects
- Onboard WLAN (802.11b) chip with a range of up to 300m (985'), enables access to data wherever and whenever. IEEE 801.1x compliant, WEP, TKIP, PSK, Cisco Leap, WPA, WPA2 (Funk Odyssey Client), DSSS modulation type, country specific use of frequency bands between 2.400 GHz and 2.497 GHz, 100 mW TX power, WECA Wi-Fi, UL, CSA, ANATEL, CE specified
- Integrated Bluetooth 1.2 class II chip (1 mW TX power) with a range up to 10m (33'). Supports the most common Bluetooth profiles like ActiveSync, A2DP (Advanced Audio Distribution Profile), AVRCP(Audio Video Remote Control Profile), BIP (Basic Imaging Profile), BPP (Basic Printer Profile), DUN(Dial-Up Networking), FTP(File Transfer Protocol), GAP(Generic Access Profile), HFP(Hands Free Profile), HCRP(Hard Copy Replacement Profile), HSP(Headset Support Profile), HQA(High Quality Audio), HID(Human Interface Device Profile), LAP(LAN Access Profile), OBEX (Object Exchange Profile), OPP(Object Push Profile), PAN(Personal Area Network), SPP(Serial Port Profile), SDAP (Service Discovery Application Profile)
- Program other infrared enabled devices using IrDA / SIR / FIR with up to 4Mbit/sec

Ex-designation
 II 3 G EEx nI IIC T4
 II 3 D T55°C IP65

Type-examination certificate
 ZELM 04 ATEX 3201

Type approval
 Class 1 Division 2 Groups A-D
