

The POLARIS Panel PC 15" Sunlight is enhanced with industrial LED backlighting, which reaches a very high brightness of 1,000 cd/m². Combined with the special characteristics of the front polarizer, this allows excellent readability even under strong sunlight and it is therefore ideal for use outdoors. The panel PC has been equipped as standard with the Intel[®] Atom[™] SoC E3845, 1.91 GHz. The Ethernet interface can be used to connect individual computers or network devices, e. g. a printer, to an existing local network (LAN) (WLAN is also a possible option) or local networks can be set up completely wirelessly. This facilitates a high-performance visualisation and operation of the processes directly on site. The wired electrical connections are realised via a terminal compartment of the "e" type of protection (increased safety). The state-of-theart display technology guarantees an optimum contrast, even with large viewing angle. The Front-panel fitting assures easy installation. On request, the devices are also available as ready-made system solutions in Stainless-steel enclosure for wall or floor mounting. An intrinsically safe USB interface is available for a USB Ex i memory stick. Intrinsically safe input devices can also be connected. The optional (intrinsically safe) touchscreen offers the optimum in operating comfort. Windows 7® Ultimate or Windows 10® IoT can be used as an operating system. The Panel PCs therefore support the installation of numerous software packages, such as customer-specific software or other commercially available standard visualisation software. Of course, here too the operator can also work with the BARTEC "BMS-Graf-pro" programming package (Version 7.xxx or newer). The BARTEC PROFIBUS-DP interface can only be used in connection with the BARTEC "BMS-Graf-pro" software.

Explosion protection

Technical data

Construction	Front-panel fitting					
Protection class	IP 65 (front) IP 54 (back)					
Display	15" graphics-capable TFT colour display 16.7 million colors XGA resolution, 1024 x 768 pixels Brightness up to 1500 cd/m ² Visible area approx. 304 x 228 mm Contrast 800:1 Antireflection-coating glass pane Optional touchscreen (resistive)					
Backlighting	LED technology Service life approx. 50,000 hours (at +25 °C)					
Computer capacity	Processor: Intel [®] Atom [™] E3845, 4 x 1.91 GHz 4 or 8 GB RAM 100 GB HD or 128 GB SSD (MLC)					
Operating system	Windows 7 [®] Ultimate or Windows [®] 10 IoT LTSB					
Interfaces (Basic version)	1 x Ex e Ethernet 100/10BaseT 1 x Ex e USB 1 x Ex e RS422 1 x Ex i USB for Ex i memory stick 2 x Ex i PS/2 for intrinsically safe mouse and keyboard					
Optional accessories	Hand-held scanner on request					
Dimensions (W x H x D)	411 mm x 332 mm x approx. 135 mm					
Wall cut-out	394.5 mm x 315.5 mm + 0.5 mm					
Gewicht	approx. 23 kg					
Power supply	AC 90 to 253 V, 50 to 60 Hz DC 24 V ± 10 %					
Max. power consumption	P _{max.} < 70 W					
Admissible ambient temperature	Storage-20 °C to +60 °COperation-20 °C to +60 °C					
Relative air humidity	5 to 95 % non-condensing					
Vibration	0.7 g/1 mm; 5 Hz to 500 Hz pulse in all 3 axes					
Shock	15 g/11 ms pulse in all 3 axes					
Material	Front: polyester foil on anodised aluminium plate (conditionally UV-resistant) Back: bichromated sheet steel
