

Introducing the new Sonim RS60

COMM-CO

Communication today and tomorrow.

Work. Communicate. Scan.
All from one device.

sonim

High-performance durability in a portable package.

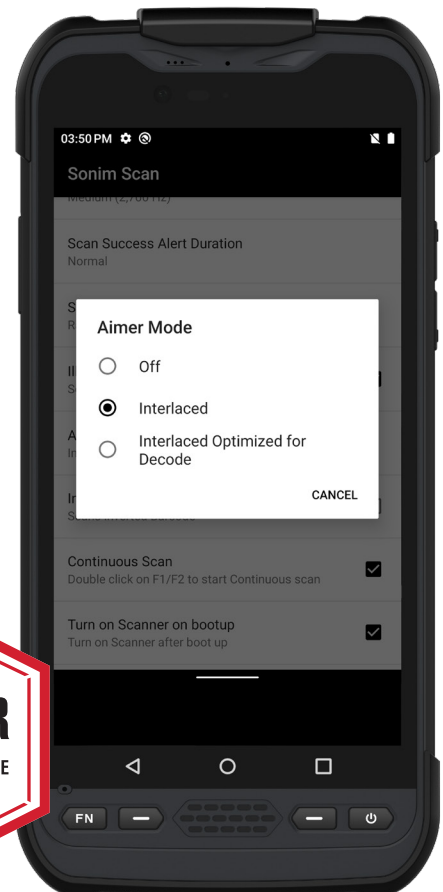

The RS60 SmartScanner brings all the power and efficiency of a fully-rugged Sonim device with the added benefit of a large 6" sunlight readable display. With the addition of a powerful built-in barcode scanner, it's an essential productivity tool for anyone that needs the features of both a phone and a scanner in one device.

The portable handheld size and ability to scan worn tags in any lighting condition makes the RS60 a top choice for **warehouse** and **manufacturing** work, as well as the **transportation** and **logistics** industry.

The RS60 is built to withstand the tough working conditions that **public safety** and **field workers** face on a daily basis. The durable design is waterproof, dustproof and chemical resistant, making it easy to clean and disinfect.

In addition, **first responders** and anyone working in the elements will appreciate the RS60's glove-friendly touchscreen made with Gorilla Glass 3, plus an anti-fingerprint coating that remains precise and responsive, even with wet fingers.

The RS60 is ready to serve.

No matter what industry you work in, when it comes to computing, communicating, scanning and collaborating in challenging environments, the Sonim RS60 SmartScanner offers the ultimate all-in-one solution.

Features

- 1 High-capacity multi-shift battery** provides more than enough battery power to get through the day. It's also user-replaceable, so you can easily swap it out if needed.
- 2 Sunlight readable FHD 6" display** features Gorilla Glass 3 and anti-fingerprint coating lets you stay productive in harsh lighting conditions.
- 3 Integrated barcode scanner** features an enterprise class scan engine capable of fast and reliable scanning that can also read worn tags with ease and perform in low-light conditions.
- 4 SonimWare** software increases productivity and efficiency with our propriety set of software tools, applications and utilities designed specifically around your needs.
- 5 4G LTE connectivity** provides a robust high-bandwidth cellular connection for reliable communication.
- 6 Front facing loud-speaker** ensures users will be able to hear alerts and communicate clearly in noisy environments.
- 7 Highly-responsive touchscreen** that's glove-friendly and wet-finger friendly so you can work comfortably in cold or wet conditions.
- 8 Support for Push-to-Talk** applications allow for instant communication, while customizable physical buttons let you tailor the RS60 to your workflow.
- 9 2-year comprehensive warranty** for peace of mind should anything happen to your device.
